

**AS Protech**  
SUISSE GmbH

# BUILDING A SUSTAINABLE FUTURE

2025

# INTRODUCTION

**AS PROTECH** is a leading innovator in renewable energy and high-performance building solutions. We specialize in designing and delivering cutting-edge photovoltaic systems, windows, and doors, operating as a general contractor to provide integrated, customized solutions for individuals, businesses, and public administrations.

With a forward-thinking vision, AS PROTECH is committed not only to providing advanced technological solutions but also to fostering a culture of sustainability, actively contributing to building development and urban regeneration.

# WHO WE ARE

**AS PROTECH** is a network of specialized companies dedicated to sustainable building practices, energy efficiency, and technological innovation. We were founded on the principle of offering comprehensive, integrated solutions, bringing together qualified professionals to approach each project with expertise and precision.

Leveraging our extensive experience and collaborations with trusted partners, we deliver turnkey solutions encompassing design, energy efficiency, and property management. We are committed to quality, sustainability, and on-time delivery, working both nationally and internationally to accelerate the green and digital transition within the building sector.

# OUR HISTORY

**AS PROTECH** was founded with the goal of becoming a leader in renewable energy and high-performance building solutions. Responding to evolving regulations and the increasing demand for sustainable practices, we have strategically expanded our approach. This proactive strategy drives new business opportunities within the building and construction industry by:

01

**Adopting Emerging Technologies:** Implementing solutions derived from applied research for smart management of land, infrastructure, environment, and mobility.

02

**Utilizing Advanced Materials:** Employing high-performance materials consistent with the principles of sustainability and the circular economy.

# VISION AND MISSION

Our mission is to actively contribute to the energy transition and the improvement of housing quality through the adoption of sustainable technologies, state-of-the-art materials, and manufacturing processes geared toward efficiency and environmental friendliness.

**AS PROTECH** guarantees complete turnkey interventions, from initial consultation to design, implementation and maintenance, ensuring strict quality control at every stage of the process.

# BUSINESS STRATEGY

**AS PROTECH's** strategy is to strengthen its competitive position in the domestic market while strategically expanding into select international markets. This approach is designed to achieve sustainable, technologically advanced growth aligned with the global challenges facing the energy and construction sectors. Our key objectives include:

- To offer integrated solutions in the field of photovoltaics, windows and doors, and building design, presenting itself on the national and international market as a reliable partner for turnkey and energy-efficient projects.
- Fostering synergies among partners and collaborators, ensuring better economic and financial results for the individual entities involved through optimized resource management and the adoption of innovative technologies.
- Expand presence in international markets, through collaborations with foreign companies and professionals who share **AS PROTECH's** values and goals, promoting innovative projects in the renewable energy and building upgrading sectors.

# OUR SERVICES

**01** High-Efficiency Photovoltaic Systems: We design and install customized, high-efficiency photovoltaic systems to maximize solar energy capture, reduce energy consumption, and lower costs. Each system is tailored to the client's specific needs.

**02** High-Performance Windows and Doors: We offer innovative, high-performance windows and doors that enhance thermal and acoustic insulation, minimizing energy consumption and improving comfort.

**03** Turnkey Design and Implementation: Our comprehensive, turnkey service manages the entire project lifecycle, ensuring adherence to timelines and uncompromising quality.

Monday – Friday: 9:00 AM – 6:00 PM

# CONTACT US

We are eager to answer your questions and help you bring your project to life. Whether you're interested in a photovoltaic system, new windows and doors, or a complete building project, our team is ready to support you every step of the way.
