

GOLLEDGE is a supplier of frequency control products. The products are used throughout the electronics industry including telecommunications, satellite, microprocessor, aerospace, automotive, instrumentation and medical applications.

Advantages

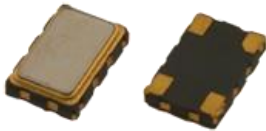

- Total quality
- Professional
- Competitive pricing
- Comprehensive stocks
- Technical support

GOLLEDGE Crystals

Products

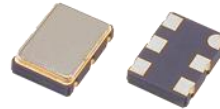

- Quartz Crystals
- Timing Devices
- Resonators
- RTC
- VCXO
- TCXO
- VCTXO
- OCXO
- Crystal Filters
- SAW (surface acoustic wave) Devices

Custome Made Products

GOLLEDGE produces quartz crystals and Oscillators upon your request. Just provide us with all suitable specifications like:

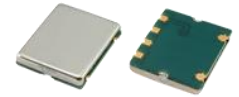

- Package Size
- Frequency
- Frequency Stability & Temperature Tolerance
- Operating Temperature
- Supply Voltage
- Output Load
- Special Requirements like Jitter, Symmetry etc.

**AUTHORIZED
DISTRIBUTOR**

TCXO & VCTXO

- SMD and THT packages
- Frequencies from 4 to 56MHz
- Supply voltages from 1.8 to 5.5V
- Frequency Stabilities down to ± 0.3 ppm

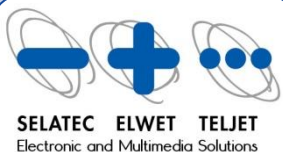

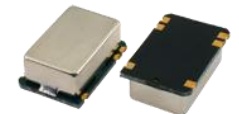

OCXO

- SMD and THT packages
- Chassis mounted OCXOs
- Frequencies from 5 to 100MHz
- Supply voltages from 3.3 to 12V

VCXO

- SMD and THT packages
- Frequencies from 1 to 800MHz
- Supply voltages from 3.3 and 5.2V
- Frequency Stabilities down to ± 25 ppm
